GUIDING PRINCIPLES

For the book to be uniform and allow each author to have a three to five-page spread, the stories must be a minimum of 1000 words and not exceed 1750 words. This provides ample space to share a fairly detailed story. Once you are registered, we will invite you into our private Facebook page and provide you with specific author submission guidelines, to help you format your submission properly.

In addition to the story submission, each contributing author will submit a professional headshot and bio up to 250 words along with contact information, which will be included in the book. Furthermore, if you require a ghost-writer to assist in writing your story, we will refer you to editors, but the fee will be at your expense.
